ACCUMULATION

FINANCE.

The Colony of Queensland comprises the north-eastern portion of the Continent of Australia—its northern extremity is Capo York, and its southern (on the coast) Point Danger. The one hundred and thirty-eighth degree of longitude is its boundary on the west.

The area of the Colony is 668,497 square miles, and its seaward extends 2,256 miles.

The Colony is divided into sixty Electorates, forty-eight Districts each returning one member, and twelve Municipalities each returning two members. It has seven local municipalities, two principal boroughs and about twenty other small towns or townships. There are also Shire Councils and Divisional Boards charged with the construction and maintenance of public highways and other necessary public works within their divisions.

From the returns of the Census of 1846, it appears that, out of the entire population, 147,963 are Australian born (of whom 121,074 were born in the Colony, 66,016 were born in England and Wales, 40,401 in Ireland, 19,944 in Scotland, and 14,232 in Germany).

There were only 2,342 persons returned as suffering from sickness and accident, being at the rate of 3.85 in every 1,000 persons.

The following are the rates of increase during the intervals between each Census. —

$\mu(1) - \mu(2)$...	2.71	cents	101.14	per cent.
$\mu(1) - \mu(3)$		4.17	"	82.53	"
$\mu(2) - \mu(3)$		2.52	"	51.32	"

1870-1901	1,061	23.23
1881-1890	602	51.20

* Excess of departures over arrivals. * Estimated Value.

The following information as to the Population of the Colony is obtained from the results of the Census taken on the nights of the 3rd April, 1881, and 1st May, 1880, respectively:—

	COAL PROSPECTING AREAS. Any person who is desirous of prospecting Crown lands for coal may make application in the pre- scribed form to the proper Commissioner for a license to occupy any Crown lands described in the application, and not being of greater area than six hundred and forty acres, for the purpose of searching for coal thereon £0 0 6	Annual rent for license, per acre.	
	The license may be renewed by the Commissioner for another year upon payment of a like sum of sixpence per acre of the land comprised therein, and upon proof to the satisfaction of the Minister that the licensee has during the period of the license used reasonable endeavours to search for coal upon the land, and has not used the land for any purpose not hereby authorised.		
50 Vic., No. 20. (13 Oct., 1886.)	If during the period of the license or the renewed license the licensee desires so to do he may apply under the provisions of the Principal Act for a lease of any part of the land com- prised in the license not exceeding three hundred and twenty acres in extent, and his application shall have precedence over the application of any other person for the same land.		
	The yearly rent of land leased for the purpose of mining for coal shall, instead of being at the rate of ten shillings per acre as provided by the Principal Act, be at the rate of sixpence per acre, and there shall also be reserved in the lease a royalty at the rate of threepence for every ton of coal raised from the land during the first ten years of the term of the lease, and at the rate of sixpence for every ton raised during the remainder of the term.		
	The times and mode of ascertaining the amount of any royalty so payable and the time for payment thereof shall be pre- scribed by the lease.		
	If land leased for the purpose of mining for coal is used for the purpose of mining for any other mineral, rent shall become payable in respect thereof at the rate of ten shillings per acre in addition to the royalty, if any, payable in respect of coal raised therefrom.

Total...	1	33	380	85,211 12 0	5,621 17 2	11	2	1

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fi. fa.* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest—the purchase money being nominal.

Showing an increase in tin ore of 307 tons; a decrease in silver and lead of 993 tons; an increase in coal of 72,599 tons, in copper of 116 tons.

The apparent discrepancy in the quantities and values of the silver from Herberton, Ravenswood, and Burketown Districts may be thus explained—5,347 tons of ore raised in the former district was reduced by smelting to 1,083 tons of lead bullion containing, according to assay, 229,308 ounces of silver, while the 97 tons of ore reported at Ravenswood and 10 tons at Burketown is undressed ore.

GLEN. CAMERON,
Acting Under Secretary for Mines.

This Colony of Queensland comprises the north-eastern portion of the Continent of Australia—its northern extremity is Cape York, and its southern on the coast Point Danger. The north and south and thirty-eight degrees of longitude is its boundary on the west.

The area of the Colony is 695,197 square miles, and its coastline extends 2,250 miles.

The Colony is divided into sixty Dioceses, forty-eight Districts each returning one member, and twelve Districts each returning two members. It has twenty-eight municipalities, and about two hundred small towns or townships. There are no State Councils and no Municipal Councils elected by the people, and no maintenance of public highways and other necessary public works within their divisions.

From the returns of the Census of 1861, it appears that, out of the entire population, 117,000 are Australian born, in which 121,974 were born in the Colony; 66,916 were born in England and Wales, 16,491 in Ireland, 19,941 in Scotland, and 11,232 in Germany.

There were only 2,312 persons returned as suffering from sickness and accident, being at the rate of 7.25 in every 1,000 persons.

The following are the rates of increase during the intervals between each Census:—

Year	1861-1864	1864-1867	1867-1870	1870-1873	1873-1876	1876-1879	1879-1882	1882-1885	1885-1888	1888-1891
Rate	4.17	4.71	5.09	5.10	5.10	5.10	5.10	5.10	5.10	5.10

* Excess of departures over arrivals. * Estimated Value. * The quantity of land annually sold by auction since 1868 bears but a small proportion to the area in process of alienation, as Acts of Parliament were passed in 1868, 1869, 1870, and 1881, allowing the payments for lands selected to extend over a period of years.

** The numbers of letters and newspapers have been revised to correspond with an amended Return furnished by the Postal Department.

† The total gold to end of 1877 has been estimated by the Mines Department at 2,669,940 oz., which is 600,000 oz. more than the quantity shown as sent by escort during the same period; the amount sent by escort was always known to be short of the actual production, and the discrepancy increased as railways to the interior were completed, but prior to 1879 there was no means of forming an estimate.

‡ Live Stock Borderwise included for the first time.

The following information as to the Population of the Colony is obtained from the results of the Census taken on the nights of the 3rd April, 1881, and 1st May, 1880, respectively:—

	COAL PROSPECTING AREAS. Any person who is desirous of prospecting Crown lands for coal may make application in the pre- scribed form to the proper Commissioner for a license to occupy any Crown lands described in the application, and not being of greater area than six hundred and forty acres, for the purpose of searching for coal thereon £0 0 6 The license may be renewed by the Commissioner for another year upon payment of a like sum of sixpence per acre of the land comprised therein, and upon proof to the satisfaction of the Minister that the licensee has during the period of the license used reasonable endcavours to search for coal upon the land, and has not used the land for any purpose not hereby authorised. If during the period of the license or the renewed license the licensee desires so to do he may apply under the provisions of the Principal Act for a lease of any part of the land com- prised in the license not exceeding three hundred and twenty acres in extent, and his application shall have precedence over the application of any other person for the same land. The yearly rent of land leased for the purpose of mining for coal shall, instead of being at the rate of ten shillings per acre as provided by the Principal Act, be at the rate of sixpence per acre, and there shall also be reserved in the lease a royalty at the rate of threepence for every ton of coal raised from the land during the first ten years of the term of the lease, and at the rate of sixpence for every ton raised during the remainder of the term. The times and mode of ascertaining the amount of any royalty so payable and the time for payment thereof shall be pre- scribed by the lease. If land leased for the purpose of mining for coal is used for the purpose of mining for any other mineral, rent shall become payable in respect thereof at the rate of ten shillings per acre in addition to the royalty, if any, payable in respect of coal raised therefrom.

* Court transferred from Bowen, 2nd December, 1889.

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fi. facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest—the purchase money being nominal.

N.B.—The total number of persons married, and the number of persons married in proportion to every thousand of the population, may be ascertained by doubling the figures in the columns marked *a*.

The Census taken on the 3rd April, 1881, showed a total population of 213,525, being 12,552 less than the estimated population on 31st December, 1880; the estimated mean population for 1881 has therefore been correspondingly reduced.

Showing a decrease in tin ore of 553 tons; in silver and lead of 86 tons; in coal of 45,855 tons, in copper of 47 tons; an increase in bismuth of 52 tons; in antimony, 58 tons.

The apparent discrepancy which appears on comparison of silver and lead for the two years 1888 and 1889 can be explained by the large increase in the production of pure silver at Herberton for the latter year.

The apparent falling off in the production of coal can be accounted for by the fact that several large colliery proprietors have neglected to furnish returns of their operations for the past year.

Acting Under Secretary for Mines.
